NATIONAL AWARDS PRESENTATION TO LOCAL COMPANY Local Company Wins “Big”

Dallas, Texas (February 3, 2012): The Spray Polyurethane Foam Alliance (SPFA) presented their national, awards of excellence last Wednesday. Arithane Foam Roofing headquartered in southwest California emerged a grand prize winner.

Arithane Foam Roofing was one of only two nation-wide winners who captured the crystal sculpture awarded in the category of roofs over 40,000 sq. ft. Nominations were received throughout the previous 12 months from across the country in this annual gala event. Culled from an extensive list to four finalists, Arithane Foam Roofing's work on the Orange Lutheran High School in Orange, California was judged by peers to be the best in the industry. Nominations are judged independently by a panel of industry experts. Nominations are anonymous to the panel who vote securely online from their home state.

Arithane Foam Roofing has been an accredited, spray foam contractor for many years. Meeting professional standards set by the Alliance, Arithane Foam Roofing commits to improving their staff and product through continual education, and accreditation. As a new, national award winner, they are poised to share their expertise with many local residential and commercial insulation projects.

The SPFA (Spray Polyurethane Foam Alliance) is the voice and educational arm of the polyurethane foam industry. SPFA delivers training, industry certification, leadership on energy conservation, the environment, health & safety, building codes and technical advances in the industry. Members are professional contractors, manufacturers and distributors who strive to educate, regulate and improve the trade.
